

Challenge 1

Build something with wheels using 30 pieces.

Challenge 2

Build an animal using only two colors.

Challenge 3

Build the tallest tower you can. It has to stand on its own.

Challenge 4

Build a robot from 20 pieces.

Challenge 5

Build something that flies.

Challenge 6

Build a monster with three eyes.

Challenge 7

Build a boat in five minutes.

Challenge 8

Build your favorite food.

Challenge 9

Build a chair for your smallest toy.

Cut along the dashed lines, then pick a card and build.

Challenge 10

Build the first letter of your name.

Challenge 11

Build something using only one color.

Challenge 12

Close your eyes and build for one minute. What did you make?

Challenge 13

Build a house with a door and two windows.

Challenge 14

Build a tree with as many colors as you can.

Challenge 15

Build a creature from exactly 10 pieces.

Challenge 16

Build something you can see from where you sit.

Challenge 17

Build a castle with a gate.

For grown-ups

What else can this pile make?

Scan the code, then photograph the bricks spread out in one layer. You get a rough count by shape and color, and build ideas to try next.
